Through The Door!

Endings and Beginnings always and only co-exist. Due to our rather underdeveloped mental equipment and lumbering technology, these points in Cosmic Time are for us quite relative. However, on this planet the Conclave of the Arhats every 49 years marks a rather stable conjunction of two life waves, or an ending/beginning point of crisis. The Conclave of the Arhats in 2001 was such a conjunction.

Although we were totally unaware of it at the time, this particular Conclave of the Arhats occurred at what was a hugely significant point in the Great Unfolding. It now appears that this particular conjunction involved the planning for the ending of a very long cycle, and the beginning of another.

During this particular period, a number of workers from around the globe were participating in a previously planned Conclave in Darjeeling. Of course we knew that the Arhats, according to the schedule laid out in *Rays and Initiations*, were meeting. However, other than it was the Wesak full moon which our many years of previous meditation experiences indicated would be out of the ordinary, we had no grand assumptions regarding that particular alignment.

To most of us, our meditations over the five days of our Conclave were quite powerful. The level of Light and the intensity of the Silence seemed to expand with each meditation. In retrospect, it seems that the meditations of the first two days were preparatory or conditioning for the exact time meditation. The meditation we held at the exact time of the Taurus full moon was extraordinary. The group downloads of the next two days were astonishing to us all.

The results of that Conclave were correlated and recorded in a document that we called *The Darjeeling Declaration*. Although at the time it seemed to us to be

a rather "out there" document, it was our

best effort to capture in thoughtforms what came through in the group meditations, and sharing. We felt obligated to share it within the world esoteric community, and during the next few months we did. It was published in the October issue of Thoughtline.

This is the introduction of the document. *For the entire document see the attachment to this Thoughtline.*

DARJEELING DECLARATION

May, 2001

This Declaration is a summary of impressions received in meditation at the World Service Intergroup conclave by

forty representatives of spiritual groups from around the world during a meditation retreat held in Darjeeling, India during the five day Wesak full moon period, May 4-9, 2001.

Various ideas from the meditations were grouped under common themes and edited for brevity. Although there was not a formal process to agree on every word, participants agreed to the wording of the final document.

For a list of the groups whose representatives meditatively participated in its creation, please see the listing on the final page. The participating groups of the WSI do not necessarily endorse the content of the following Declaration.

The Great Decision

The Great Decision for humanity is whether it will tread the lighted Way and choose to throw off the shackles of all that binds it to the lower realms and liberate itself into the freedom of the Spirit. The Decision of the Arhats is to provide the energy to humanity to make this possible despite whatever upheavals and destruction this may cause in humanity. For destruction of the form is preferable to the death of the spirit and the living death of souls in bondage. Power will flow to all that liberates humanity from its chains and power will be removed from all that enslaves the Spirit. The time has come for humanity to be free.

The Externalization and Reappearance is beginning now and the true government, led by disciples and initiates, will be in place by 2025.

What Hierarchy Needs Accomplished

Clarification of the mental plane – remove the illusion and old thoughtforms that prevent clear thought; provide clear thinking on the issues of the times; and present the principles of the new civilization and the fact of Hierarchy. Purification of the emotional plane: make love and active goodwill the watchword in all human situations and relationships; reorient humanity towards the good, the beautiful and true, and create harmony and tolerance. Circulation on the etheric/physical plane: ensure adequate pranic life force to all lives in form; provide the basics of life necessities to all human beings; repolarize and reorient to spirit, away from material form. Hierarchy needs disciples being present and public in the world, reclaiming the world as sacred ground, so humanity can see spiritual power present in the world.

As Hierarchy approaches the world of human politics, it will inspire and guide those disciples who are in positions of power in the world. **This will be done from a different perspective and will require, for those who will work in this way, a more profound immersion in the Unity of Life.**

Plotting an intensity curve of the expansion of world consciousness or Light, and the corresponding meditation work of groups around the world between the 2001 Conclave in Darjeeling and the 2012 Conclave at Loyola Marymount University in Los Angeles reveals a steady and significant upward trend. Upward in this case means ever more toward balance, equilibrium and Light. Light reveals. The upward push of this

trend line has steadily revealed the gap or the imbalance between Plan and manifestation.

In the past four years, as the recurring series of crises gripped Humanity in the forms of constant war, famine, economic collapse, citizen awakenings, i.e.; the Middle East, and the Planet in the forms of tidal waves, earthquakes, typhoons, oil spills, reactor meltdowns, and global warming, the divisions between the Retrogressors and the Forces of Light became more and more clear to the general public. The trend line became ever more steep. In 2012, this present and last cycle of the Old Mayan Calendar, the trend line spiked!

Humanity's response to this series of crises or opportunities has been positive and very powerful. These efforts are being obscured by the Retrogressors through their continuing control of public media. Even so, people the world around are growing more and more aware of the gross imbalances that have generated these crises.

Nothing is more indicative of this growing awareness than the recent election in the U.S. of a highly evolved member of the New Group of World Servers. Regardless of the overwhelming material forces of retrogression arrayed and employed against him, he was elected by a large majority. This fact is of great significance.

It speaks loudly and clearly of Humanity's new vision and our determination to live free from the bonds of material slavery.

Through this act and many others in the recent past, we have opened and passed through a door in the evolution of the Race, the Planet and, probably, the System.

From this passage, there is no turning back. We have broken loose from the ancient shackles that have bound us. We have burnt the bridges that lead back into the psychosis (Chaos on the subtle

planes) of the Great Illusion of Separation. In a way, one might say that Humanity has

taken an initiation, or at least demonstrated that we are ready to be Human. We are ready to fulfill our destined role in the Plan. That is, we are ready to be the stewards rather than owners of the Planet.

So, our transition this year from the outbreathing cycle of Sagittarius to inbreathing cycle of Capricorn will be ever so much more than simply moving from an ending cycle to a beginning cycle. It will be a transition into a very different Life and World. There are enough of us now to gain the balance, to stand in the Light of what lies ahead. For we know, not only in our minds but finally in our hearts, that "in the last analysis there is only One World and the One Humanity."

We are ready to fulfill our destined role in the Plan. That is, we are ready to be the stewards rather than owners of the Planet.

Still, Friends, this position we now hold is only a beachhead. The point of fruition, the point of culmination in time towards which we work, is the annual meeting of the Hierarchy in 2025. In no uncertain terms, Master D.K. pointed directly to this period, "Since then [the time

It is not an ending we face. It is a new beginning. It would be wise to say nothing of vigilant, in this New Age, not to expect or look for a period of blissful rest.

of the Buddha] the tide of spiritual life has steadily flowed westward, and we may now look for a corresponding climax in the West, which will reach its zenith between the years 1965 and 2025." ***The Light of The Soul p.xii***

Friends, this is our time. It is what we incarnated to do. We need to remember that the rite of initiation is not something that is bestowed upon the traveler. **It is a ceremony of recognition of work done and goals achieved!** There is no reason to think that initiation for Humanity is any different. There is not now and there never has been an easy path to the top of the Mountain.

So, the struggle is far from over. The door where evil dwells has not been sealed. The Retrogressors are very active.

Regardless of what does or does not occur for each of us on December 21st, the struggle is not over. It is not an ending we face. It is a new beginning. It would be wise to say nothing of vigilant, in this New Age, not to expect or look for a period of blissful rest.

There is no blissful rest! Rest is stagnation. It exists only for those dreamers who are still shackled by the chains of illusion.

There is however a realization of the beauty and joy of labor, of service, of Creation. Expect and look for new beginnings. Expect and participate with

joy in the reconstruction, in the evolution, in the change that embraces the One Humanity and our terribly mistreated planet.

The watch words continue to be, as they have been from the Beginning, **The Common Good and The General Welfare.**
