The Decade Of Joy

by Tom Carney

Online Workshops/Classes (Please call 310-545-0910 to arrange participation)

- Building the Lighted Way - Sundays @ 9:00-11:00 AM Pacific Time
- Monday Evening Workshop @ 6:30-8:00 PM EASTERN TIME
NATURE OF THE SOUL Please email arcanaworkshops@gmail.com
- White Magician Training - Wednesday Evenings @ 7:00-9:00 PM Pacific Time

Online New and Full Moon Group Meditations

(To sign up for notices, e-mail arcanaworkshops@gmail.com)

Group Meditation Work, Images Of Truth

January 9, through February 7, 2016

JOY

February 8, through March 8, 2016

The Decade of Joy

There has never been a period in our planetary history in which opportunity has loomed so large or when so much spiritual light and force could be contacted and utilized by humanity. *Discipleship In The New Age II* P.162

Our Planet is entering the final decade of the 100 year Living Plan initiated at the Hierarchical Conclave of 1925. The Plan which is based on the "prevision" and foreknowledge of various alignments of the Cosmic spheres and the release of the Shamballa Energy directly into Humanity in 1945, 1975, and 2000, is modified and "updated" as needed.

Given the unexpected rapidity of the expansion of our consciousness, we are informed that "Today, human beings as a whole are so loudly invocative that the entire trend of the life of the Hierarchy and its plans to date have been subjected to change, to postponement as far as certain interior and purely hierarchical determinations are concerned, and to a hastening of certain plans which were slated (if I may use such a word) to take place several centuries later than this **but which—owing to the unexpected preparedness of humanity—can take place, not prematurely really, but securely and in the fullness of time; this fullness of time, as regards the**

particular planning with which we are dealing, is from now until the year 2025 A.D. Externalization of the Hierarchy P. 561,2

Since the industrial revolution of 18th and 19th centuries, the natural evolutionary trend toward ephemeralization (that is to do "more and more with less and less until eventually you can do everything with nothing." *R. Buckminster Fuller, Nine Chains to the Moon, pp. 252–59*) has accelerated at an unimaginable rate.—The "nothing" to which Fuller was referring is simply a word that was used uncountable centuries ago to identify the invisible force we know as energy, or no-thing.—In the just passed 100 years this acceleration of development has occurred in all areas of human endeavor and, if anything, is still accelerating. In the case of most

individuals who are 60 or so and are somewhat conscious, this acceleration—given their tendency of a form focused reality—will be most apparent in the startling advances made in "technology".

There is not one area of human life on the dense physical that has not been subjected to the application of technological modifications and changes. Many of these applications concern the use of technology in areas such as, medicine, transportation, architecture, "information at our fingertips".

There is not one area of human life on the dense physical that has not been subjected to the application of technological modifications and changes.

Perhaps the most dramatic and amazing developments in this area are the technological advances that have actually moved us off of the dense physical plane and into the ethers: communication over physical dense wires to wireless internet, from “hard copies” of books to digital or e-books from “cash” to “credit cards” and now to cell phone charging, from paper photos to digital photography, and then there are the almost countless applications of computer technology to just about anything, 3D printers for example.

"Science fiction will become science fact this year (2016) when you take virtual-reality vacations and your dishwasher reorders its own soap. Are you ready for a drone that follows you around like paparazzi? Advanced sensors and imaging in dedicated headsets promise immersive experiences that will make you feel like you're in a teleporter." *Dow Jones News Wires 12/29/15*

The Expansion of Consciousness

Amazing as the technological advances that are restructuring our lives on the dense physical are, it is the global advances or expansions of consciousness rather than the techy stuff, that amaze me. Doing more and more with less and less is precisely what we get when we act as the One Humanity rather than a bunch of self absorbed isolated “individuals”. It is the expansion of consciousness that will eventually

move Humanity, literally, off the dense physical plane of the planet.

So, it is the huge developments in the expansion of human consciousness, and the rapidity with which they have been, and are continuing to be occurring in accordance with the 1925 Hierarchical Conclave’s Plan that have me amazed. It is not the “technology” that is advancing human Life. It is these expansions of consciousness which enable humans to see and understand the reality of a multidimensional cosmos that are the true drivers of ephemeralization or evolution.

It is the expansion of consciousness that will eventually move Humanity, literally, off the dense physical plane of the planet.

Much if not most of the applications of the ongoing explosion of technology are primarily the products of the will of separative, personal, form focused consciousness’s, personalities who use our considerably huge intelligence to produce things that they desire for their own self satisfaction, or as a product that they can market to make money, and/or to enhance the personal power of either the individual or the collective, be that a family, a business or a nation. Even those things that have a very valuable utilitarian function are seen primarily as a commodity to sell. This of course includes the huge so called “Defense” or weapons market whose only utilitarian value is to kill people or animals.

In a very real sense, the continued use of intelligence to generate technology to

satisfy separative desires will lead humanity into a dead end, literally a “dead end”.

It is only the expansion of consciousness which has revealed to a larger and larger sector of humanity the Truth of the synthetic, multidimensional cosmos and refuted the non-sense that “all men are mortal”.

The Truth is that all **forms**, from galaxies to ants are mortal. That is, they are the temporary results of the thought-generated out picturing of the forms of the Great Unfolding. Thus they are “mortal” or transitory. However, the Will that creates them “out of Nothing” or with energy is infinite!

It is quite obvious that if it were not for these expansions of consciousness and the revelations of such Truths, the intelligence that allowed us to understand and create the technology to build atomic bombs would have already destroyed us.

The Fourth, or Human Kingdom is meant to be the Husband or Steward of the planet, not the owners/pillagers, and user/destroyers. As our own dense physical vehicles become more and more refined we will undoubtedly choose to live more in our etheric or true bodies than in our vehicles. Imagine a planet that we treat like a garden. We walk lightly,

leaving few if any footprints, among the flowers.

The Plan is not something that will happen. It is happening right now and has been happening all along. The Plan or the Future exists in consciousness. It is an issue of manifesting it or “bringing it in” on the dense physical.

This kind of vision will be sneered at and castigated as “idealism” by the materialistic and form focused yet among us. But for those who have gained some freedom from the prison of form, it is simply common sense. It is what we can see when we look out from the Mountain Top of Capricorn.

A planet which fosters Life, Beauty, and Joy,

and which is cared for by Human Beings is not a dream. It is our destiny. And by the way, it is unavoidable so we may as well get with the program. That’s why we turn from the Capricoranean Light Supernal and get to work. What did you think the word for Aquarius, “Water of life am I, poured forth for thirsty men.” Meant? The symbol for Aquarius, ♒, is not a water wave; it is a frequency wave! Bringing the “water of Life”, or Light into manifestation is our joyful task for this final decade of the 1925/2025 Plan.
